ANTON NASR

Software Engineering Technology Co-op Student

anton@example.com | (555) 010-2290 | Demo contact information

PROFILE

Responsible, collaborative, and adaptable second-year Software Engineering Technology student seeking opportunities to build practical experience in software, databases, web development, and IT. Academic experience includes SQL, HTML/CSS, JavaScript, Python, C++, Linux, Git/GitHub, and software projects, supported by hands-on PC hardware experience and previous supervisory responsibility.

QUALIFICATIONS & TECHNICAL SKILLS

• **Technical:** SQL, HTML/CSS, JavaScript, Python, C++, Linux, Git/GitHub, database concepts, web development, and software development through college coursework.

• **Hardware:** Custom PC assembly, RAM and power-supply replacement, cooling-fan installation, Windows installation, upgrades, and basic troubleshooting.

• **Teamwork:** Contributed to requirements planning and feature design for a team web application project using Git/GitHub collaboration.

• **Transferable skills:** Responsibility, communication, teamwork, customer service, and practical problem-solving.

• **Languages:** English and Arabic | **Certifications:** Ontario Security Guard Licence; First Aid/CPR.

EDUCATION

Ontario College Advanced Diploma, Software Engineering Technology - Co-op

Centennial College | Sep 2025 - Expected Apr 2028

Co-op Preparation: COOP421 Employment Preparation

Relevant Coursework: Advanced Database Concepts; Introduction to Database Concepts; Web Application Development; Client-Side Web Development; Software Engineering Fundamentals; Unix/Linux Operating Systems

ACADEMIC PROJECT

Team Web Application Project - Centennial College | 2026

• Proposed the concept for a plant-focused web application designed to help users identify plants and track basic plant-care information.

• Helped define the project's core features and user-facing functionality as part of a team software project.

• Collaborated with team members in a Git/GitHub-based project environment during planning and development.

WORK EXPERIENCE

Computer / PC Technician

Sheridan Computers - Mississauga, ON | Mar 2024 - Dec 2024

• Assembled custom desktop and gaming PCs based on customer hardware needs.

• Replaced and upgraded components including RAM, power supplies, and cooling fans.

• Installed Windows and assisted with basic hardware troubleshooting and component replacement.

Renovation Assistant

Red Stone Contracting - Oakville, ON | 2024

• Assisted with residential renovation work including demolition, painting, and general job-site tasks.

• Worked with team members to complete hands-on tasks safely and efficiently.

Supervisor

Taza Xpress - Mississauga, ON | 2021 - 2023

• Supervised employees and helped coordinate day-to-day restaurant operations and task assignments.

• Handled opening and closing responsibilities, cash/register duties, and customer concerns.

• Supported customer service, order taking, food preparation, and workplace cleanliness during busy shifts.
